Total of all incomes identified above should correlate with this figure. If additional details or explanations are necessary, include such with your submission.
Operating Cost Recovery (additional rent paid by tenant)	If detailed breakdowns for each line item are not available please identify, as a minimum, the property tax recovery amount and remaining lump sum recovery amount within "Other (describe)". If additional details or explanations are necessary, please include such with your submission.

If additional details or explanations are necessary, please include such with your submission.
Actual Net Operating Income (NOI)	Actual net operating income to the property, thus all sources of income associated with the property less operating expenses. As detailed within the "Actual Income" section, this is to include income from government rent assistance and rent deferrals which are still receivable for the time period identified. Calculation of Net Operating Income includes total gross income less total operating expenses. If additional details or explanations are necessary, please include such with your submission.
Net Operating Income (actual total income less actual total expenses)	Total Gross Income (as described) less Total Operating Expenses (as described).
Annual Vacancy Shortfall % Experienced:	Total percentage of vacancy income shortfall experienced throughout the time period identified. This % may differ from the vacancy as of July 1, 2022, as it is intended to reflect the entire time period indicated, as opposed to a specific point in time. It is important to note that this percentage is a shortfall to income. Thus, if a space is physically vacant, but a rental agreement exists and rents are being paid, that specific space is NOT contributing to a vacancy shortfall to income.
Average Op.Cost/Sq.Ft. Charged to Tenant:	Total operating costs "charged" to all tenants, regardless of receipt of payment, divided by the total leasable square footage of the property.
