## ARE YOU ROUNDAABOUT READY?

roundabout.how 

A roundabout is a one-way circular intersection that reduces traffic congestion, while maximizing safety for all road users. Roundabouts are new for many drivers, but following these basic steps will help you safely navigate roundabouts as a motorist, cyclist or pedestrian.

### 1 APPROACH & PICK YOUR LANE

Slow down and watch for signs and pavement markings to choose the lane you need to be in for the direction you're going - right, straight through or left.

### 2 SIGNAL ON ENTRY

Once you've picked your lane, it's important to signal. Signal right if you're turning right and signal left if you're turning left. You don't need to signal if you're going straight through.

### 3 YIELD & ENTER

Look left and yield to traffic in the roundabout; only stop if necessary and proceed slowly when safe. Always yield to pedestrians.

### 4 EXIT

Stay in your lane until your exit and signal right as you approach your exit. Never pass while in the roundabout.

## INVITATION TO TENDER

### THE CITY OF RED DEER

Sealed Tenders clearly marked "**Rotary Recreation Park - Outdoor Tennis Courts, June 22, 2016**", delivered or mailed to:

The City of Red Deer  
Professional Building Suite 600  
4808 50th Street  
Red Deer, AB T4N 1X5  
Attention: Financial Services Reception Desk

and received before 2:00:59 p.m. (Alberta Time) on June 22, 2016 will be opened in public immediately thereafter. Tenders received and not conforming to the foregoing will be returned to the Bidder(s) without consideration. Faxed Tender Documents or Tender Amendments will not be accepted.

Location of Work: Within the City of Red Deer

The Work is comprised of rehabilitation of tennis courts involving removal of fence, posts, removal and disposal of asphalt, trees, granular base, granular subbase, excess subgrade material and unsuitable materials. The work also involves borrow excavation, installation of continuous asphalt slab and paving to achieve the required drainage grades, reinstall the fence, geotextile, geogrids, painting tennis courts with Plexipave. In summary:

- 5100 square meters of asphalt removal
- 150 cubic meters of removal of granular base, granular subbase and excess subgrade material
- Remove and reinstall fence
- 360 square meters of geogrid (Strata 200 or approved equivalent) (Provisional)
- 120 lineal meters of retaining wall foundation/ footing (Provisional)
- 240 lineal meters of 6 inch perforated subdrain
- 140 square meters of retaining wall system
- 360 square meters of geotextile (Nilex 2002 or approved equivalent) (Provisional)
- 180 square meters of 375mm depth granular base and 600mm depth granular sub-base
- 990 tonnes of continuous hot mix asphalt paving (75 mm thick)
- 5100 square meters of Plexipave sport surfacing

Tender Documents may be obtained from Associated Engineering, located at 4802- 50th Street, Red Deer AB T4N 1X4, on or after **June 10, 2016** for a **\$50.00** non-refundable fee.

The City of Red Deer Contract Specifications most recent Edition may be obtained from the Engineering Services Department for a \$40 non-refundable fee, or may be viewed on The City of Red Deer website @ [www.reddeer.ca](http://www.reddeer.ca).
