8.08. TRAINING

The Chief of Emergency Services, in consultation with IAFF, will retain an in-house trainer program. The number of trainer positions will be evaluated to ensure the needs of the department are being met. The Chief of Emergency Services will make decisions regarding the number of positions. A reduction in the number of Trainers by the Chief will result in Trainers who are not in designated training classifications being paid at three times (3x) the First Class Firefighter rate for all hours of instruction.

Classifications:

Captain – trainers (+4%)	8
Lieutenant – trainers (+4%)	8
QFO – trainers (+3%)	4
FF-Inspector – trainers (+3%)	4

Trainers will obtain the necessary certification (E1, E2 and E3 as needed).

Preparation time may be added to instruction hours if mutually agreed, between the Chief of Emergency Services, the Trainer, and the Association.

- (a) Training premiums will be paid for:
 - certifiable courses
 - instruction time
 - other courses the Chief of Emergency Services may authorize

- (b) Anyone instructing or assisting in the instruction of certified courses must be a certified instructor of that course in order to qualify for the training premiums.

- (c) Members instructing who are not in a training rank will be compensated as follows:

- (i) When on shift – straight time for each hour of instruction in addition to their usual pay.
 - (ii) When off shift – double time for each hour of instruction.
- (d) The Chief of Emergency Services in consultation with the Education and Training Committee will develop a fair, equitable plan to decide which courses should be taken and who should take them, subject to the needs of the department. This will be the focus of the Education and Training Committee. The Chief of Emergency Services, through consultation with the Committee, will determine the career path goals for all ranks. The Education and Training Committee will develop, or be provided with, the details of courses.

The Education and Training Committee will endeavour to set the following years training calendar by September and attempt to have the instructor and student positions filled by November. They will then provide recommendations to the APC, who will confirm attendance of instructors and members at least sixty days prior to the course start date.

It is recognized from time to time sixty days' notice may not be possible. In these circumstances members may decline attending the course.

Members may also decline to attend courses for reasons like prearranged vacation.

Declining prerequisite courses may result in members not being reclassified or promoted in the future. It is the member's responsibility to be aware of the implications of not successfully completing a course. Members declining courses are encouraged to discuss the implications with the APC, the Education and Training Committee, or the Chief of Emergency Services.

It is further agreed that if an employee has registered to take a course outlined in the career path goal, but for legitimate reasons (illness or injury, compassionate leave, emergency family leave, or unforeseen critical personal circumstances) has been unable to complete the course, the Chief of Emergency Services may deem that these courses will have been completed for promotional purposes. There is a requirement that an employee so promoted will continue to pursue this required training and there will be agreement between the parties on a time frame as to when this training should be completed.

The Chief of Emergency Services, in consultation with the President, may assign members to course(s) identified as needed for their position provided at least sixty days' notice is given.

Members may not withdraw from course attendance within sixty days of the course start date without approval from the Chief of Emergency Services.

- (f) The senior member(s) eligible to take a course (as recommended by the Education and Training Committee) will be given the first opportunity to take

the course, unless the course is to be taken while on duty, in which case the most senior member(s) eligible on the platoon will be given the first opportunity.

The Chief of Emergency Services may alter this process upon recommendation of the Education and Training Committee and/or if they deem it appropriate.

8.09. JOB GUARANTEE

Layoffs to reduce current members of the mechanical, fire prevention or fire operations branch, as distinguished from dismissal for just and sufficient cause, shall not be made (i.e. current members as of February 23, 1995).

8.10. LABOUR MANAGEMENT MEETINGS

Labour Management meetings shall occur per the Committee's Terms of Reference.

6. CONDUCT OF EXAMINATIONS

- 6.01. No member will be eligible to write any examination unless he has obtained a satisfactory performance assessment for reclassification or satisfactory promotional

assessment for promotion. Members not receiving a satisfactory assessment shall be reassessed at six (6) month intervals from the first assessment. Upon achieving a satisfactory assessment, the member becomes eligible to write their next appropriate exam. The member shall have their eligibility established at the bottom of their hiring group. If two or more members within a hiring group receive unsatisfactory performance assessments, they will have their eligibility established at the bottom of their hiring group, with their respective eligibility determined by their examination results. A member shall be entitled to have their assessment completed in sufficient time to allow them to write any examination for which they are eligible.

When a member receives a satisfactory performance assessment after six (6) months and successfully passes the examination, their reclassification and the appropriate pay level shall be retroactive to the date the member met the time requirements for experience at that level. When the member does not receive a satisfactory assessment after six (6) months, any retroactive reclassification and pay level adjustment would be based on their eligibility date the following year.

- 6.02. No member shall refuse to compete in a reclassification examination unless their absence has been approved. Approved absence shall include those granted by the departmental regulations, provisions of the Collective Agreement, or by authority of the Chief of Emergency Services.
- 6.03. The date of the examination and the names of those required to sit the examination will be posted at least forty (40) days in advance of the date of examination, and the materials referred to in paragraph 3.06. will be made available at that time.

In the Fire Prevention Bureau, the member will write on whichever date follows the anniversary date of the member's entry into the Fire Prevention Bureau.

- 6.04. A member who fails the oral and/or written reclassification examination, and/or fails a prerequisite course examination shall be entitled to take a supplemental within sixty (60) days, if eligible. A member's mark on their first attempt at an examination will be the mark that counts towards their eligibility determination. However, if the necessary standing is not obtained on the supplemental, the member forfeits their position within their hiring group and is not eligible for further examinations until their next regularly scheduled annual examination.

A member may request an opportunity to re-write the examination based on extraordinary personal circumstances. If the Examination Board deems the request valid, then the member may re-write the examination and have that mark count towards their eligibility determination.

Failure to qualify for reclassification for two (2) successive years (including supplemental privileges) may be considered grounds for termination.

- Once a member passes their reclassification examination their reclassification, and the appropriate pay level, shall be retroactive to the date the member met the time requirements for experience at that level except in cases where the member does not qualify within the sixty (60) day period for a supplemental. In this case, any retroactive reclassification and pay level adjustment would be based on their eligibility date in the following year.
- 6.05. Examinations to qualify members as eligible for promotion shall be held as required and will be during the month of March whenever possible. The Chief of Emergency Services shall post the date of the examination at least eighty (80) days before the date of the examination. Applications, in writing, will be accepted up to sixty (60) days prior to the date of the examination, and the materials referred to in paragraph 4.06. shall be made available at that time.
 - 6.06. If a member fails the written or oral and/or practical promotion examination or both, he shall be eligible for a supplemental examination within sixty (60) days without foregoing any promotions he is eligible for in the interim. During this interim period, any vacant position may be filled on an acting basis by other qualified members.
 - 6.07. All candidates sitting an examination will be given a number and this will be the only identification on the paper. The completed exam shall be placed in an unmarked envelope and sealed by the candidate. The Board members marking the papers will not have this number until such time as all the papers are marked.
 - 6.08. The Board shall review and approve the marks for all reclassification and promotional examinations. Upon request, a Board member(s) will review the examination with the candidate within thirty (30) days of the examination date, subject to the availability of the candidate and the Board member(s).
 - 6.09. The Chief of Emergency Services will retain a copy of each written examination in its blank form.
 - 6.10. The Chief of Emergency Services shall place all original copies of the candidate's written examination and other documents on the individual's personal file in Administration. Appeals must be launched within thirty (30) days of the date the member received written notification of the member's exam results from the Examination Board. Written notification of the member's examination results will be determined by the date documented when the candidate signs for receipt of exam results.
 - 6.11. Once assessments are reviewed and examination results known, a member of the Examination Board will notify the candidates in writing of their results. The Association will also be notified in writing of the names of all candidates who qualify for reclassification or entry on the eligible for promotion list. The Chief of Emergency Services will post a revised eligibility list.
 - 6.12. A member who applies for entry on the eligible for promotion list but who does not qualify shall be eligible for reconsideration one (1) year from the date candidates

receive advice as set out in clause 6.11. If the member fails to qualify on this second attempt, they shall not be eligible for further consideration until such time as they may apply when additions to the eligibility list are made in accordance with this Policy.

- 6.13. Any member who has applied to write a promotional examination and has received a satisfactory promotional assessment, but who is unable due to unavoidable approved absence, to take the scheduled examination(s), shall be entitled to take the examination(s) upon their return to work. In the event a position becomes vacant to which the absent member would be entitled had they passed the required examination(s), then the next senior qualified member who applied will act in the senior capacity until the absent member returns and successfully writes their examination. If the absent member is unable to return for a period of one (1) year, or fails the examination(s), the acting member shall be appointed to the position.

7. ELIGIBILITY LISTS AND SENIORITY

- 7.01. Seniority shall be based on date of hire to a full-time position within the Bargaining Unit. However, recruits who, as a result of the same employment competition, commence service within a thirty (30) day period of a written notification of hire shall be placed within a hiring group for the purpose of equal seniority. Should seniority in a hiring group need to be determined prior to the final reclassification step, then the average of their annual examination marks to date shall be used.

- 7.02. Upon attaining the First Class Firefighter rank, members within a hiring group who qualify shall be placed on the promotion eligibility list in order of the average of their annual examination marks, from highest to lowest. In case of a tie, the mark on the First Class Examination shall determine their position on the eligibility list.

- 7.03. In the Communications or Inspections Branch the examination marks from the first three year's annual exams will be used, and in the case of a tie, the third year's annual examination mark will be used.

7.04. Transfers Within the Emergency Services Department

When a vacancy occurs within a Branch or Bureau and is required to be filled, members in other Branches or Bureaus are eligible to apply subject to the provisions of this policy.

It is recognized that members who desire to transfer from other Branches or Bureaus must become reacquainted with the requirements of the Branch or Bureau, to effectively function operationally and safely, while recognizing the value of the experience in another Branch or Bureau.

Given the commitment that Members and Management make when a transfer occurs, Members transferring between Branches or Bureaus are preferred to remain in the new Branch or Bureau for a minimum of two (2) years to allow adequate time for training,

development in the position and familiarization with all aspects of the Branch or Bureau.

A member transferring from another branch to the Fire Prevention Branch will not receive less than their current hourly rate to a maximum of 105%. The member will not be eligible for any increase until the member has satisfied the conditions of Section 3 Reclassification of the Reclassification and Promotion Policy.

Members of the Emergency Services Department meeting the entry level requirements will be given preference over civilians when filling vacancies covered by this agreement. When two or more suitably qualified members apply for a vacancy, seniority shall govern. Members transferring into the Fire Operations Branch must have previously passed the fitness and fireground evolution components of the hiring qualifications.

Eligibility in one branch of the Red Deer Emergency Services will not apply as eligibility in another branch.

Qualifying examinations in the original Branch or Bureau may be written if eligible.

Emergency Services Management may also direct a Member to return prior to one (1) year at their discretion.

Members transferring to other Branches or Bureaus will retain their original rank and earned eligibility position in the former branch for a period of one (1) year.

Transfers Back for Periods of Time Greater Than One Year and Up to Three Years Less a Day

They shall, however, be deemed junior to any members who are promoted as result of their refusal and who in turn establish eligibility for a position of higher rank in advance of the member who refused the promotion.
- 7.07. The Chief of Emergency Services, at the time of the member's annual appraisal may, where there is reasonable cause to do so, require a member shown as eligible for promotion to requalify for that promotion, in accordance with Section 4.04., by having a new satisfactory promotional assessment, or new examination(s), or both. The reasons for requiring any reappraisal shall be specified in writing to the member.

Regarding

LIEUTENANTS

To address the issues raised concerning Lieutenants and specialty apparatus, both the IAFF Local 1190 and The City agree:

1. The City will not reduce the number of Lieutenants, currently three per platoon.
2. At least one Lieutenant will start the shift at each hall occupied by high frequency response equipment.
3. An officer of at least the rank of Lieutenant will be in charge of each specialty apparatus when it is being used at an emergency scene for its primary purpose or function. Non-officers may be in charge of and operate specialty equipment when being used for a secondary purpose – for example when the Decon Trailer may be used as a rehab shelter at a fire scene, or an engine is used as a people shuttle. This provides language that covers off the various situations that currently may occur, such as:
 - Captains in charge of specialty apparatus (when responding out of Station One with or without a Lieutenant in the vehicle)
 - Captains working shift trades or called in to work as a Lieutenant
 - Vehicle being driven around for practice, servicing, Public Relations (flooding rinks, parades)
 - Captains operating and in charge of specialty equipment because of their expertise and the requirements of the apparatus. (e.g. Jet boat)
4. The decision to add lieutenants in the future will be made by The City in consultation with the Association. The decision made by The City will be based on operational concerns, such as the need to provide adequate coverage for officer's leave and to deploy an officer with the high frequency use specialty apparatus like the Bronto or the aerial or the rescue truck, for example. (This differentiates between low-frequency use apparatus like the boats, the tanker, etc. that may not have to have a lieutenant in charge, from higher frequency use apparatus.
5. The City will ensure a reasonable number of Lieutenants are available by appropriately managing the approved leave of officers.
